

CIVIC & GOVERNMENT DIGITAL AGENCY

Durable, accessible digital infrastructure for the public sector.

We build accessible websites and custom web applications for government, engineered from the first line of code to last beyond the administration that ordered them.

CORE COMPETENCIES

- ▶ **Accessible website design & development.** WCAG 2.2 AA conformance from the first commit.
- ▶ **Custom web applications.** Permitting, portals, and service tools on Laravel and Vue.
- ▶ **Section 508 audits & remediation.** Manual AT testing, prioritized findings, and a published VPAT.
- ▶ **CMS platforms.** WordPress and modern headless platforms, no lock-in by design.
- ▶ **Civic brand identity & design systems.** Accessible color and type, documented for reuse.

DIFFERENTIATORS

- ▶ **Accessibility engineered from the first commit**, not retrofitted at the end.
- ▶ **Maintainable systems on proven, non-proprietary technology** the inheriting team can run.
- ▶ **Plain-language content as a standard**, not an add-on.
- ▶ **A HUBZone-eligible small business** in the Pittsburgh region.

REPRESENTATIVE EXPERIENCE

Stowe Township, PA ACTIVE

Municipal brand identity, website redesign, and 311 service request portal.

Public-sector accessibility

Section 508 and WCAG 2.2 AA audits, remediation, and VPATs across content-heavy sites.

Custom civic applications

Permitting, portal, and scheduling tools built on Laravel and Vue, documented for handoff.

REGISTRATIONS & CODES

SAM.GOV	Registered, active
UEI	J3XAF56PDDQ1
BUSINESS SIZE	Small business
HUBZONE	Eligible location
SOC 2	Type II, in progress
LOCATION	McKees Rocks, PA

NAICS CODES

541511	Custom computer programming · Primary
541512	Computer systems design
541430	Graphic & brand design
541990	Accessibility consulting & remediation
